Parts List and Hardware Identification

1 Assemble Clamps to Clamp Bases

Place a Clamp on top of a Clamp Base so the clamp lever is positioned over the tab on the base. Secure with four (4) #6-32 x 3/8" Fillister Head Screws and #6-32 Locknuts. Repeat with the other clamp and base.

3 Attach Clamp Base Assemblies to Windshield Header

The bottom of each Clamp Base is stamped with an R for right or an L for left.

Orient the Windshield Header as shown and position the Right Clamp Base Assembly with the R over the four holes and the lever of the clamp pointing to the front of the Header. Secure the Clamp Base Assembly to the Header with four (4) #10-24 x 3/8" Phillips Truss Head Screws and four (4) #10-24 Locknuts.

Repeat this procedure with the left base.

4 Install Windshield Header Assembly on Windshield

Open both clamps and position the Windshield Header Assembly over the windshield. Lower a Clamp Base over the loop on the windshield with the base tab in front of the loop. Close each of the clamps. Push a Clamp Foot forward so it is tight against the windshield and tighten the #10-24 x 3/4" Phillips Truss Head Screws. If the front edge of the header can be lifted off the rubber seal on the windshield, move the foot further forward. If the effort needed to close the clamp is too much, move the clamp toward the rear. Repeat with the other clamp.

5 Install Bikini

Remove the Windshield Header Assembly from the windshield and attach your bikini as detailed in the bikini instructions.
